Academic Projects

Title : LearnHub
Platform : SpringBoot + React **Duration** : 1 Month
Description : LearnHub A full-stack note-sharing and learning marketplace built with React frontend and Spring Boot + PostgreSQL backend. It enables secure JWT authentication, role-based access (Learner, Creator, Admin), paid digital document sharing, article publishing, doubt sessions, community forums, and secure file handling. Designed with a code-first Spring Data JPA model for structured data handling and better security.
